SUMMARY

Data Analyst and Business Intelligence professional with hands-on experience delivering 6 production Power BI dashboards, processing 445K+ records via ETL pipelines, and transforming complex datasets into KPI-driven reporting systems. Proficient in SQL, Python, DAX, and data modeling, with a proven track record of building end-to-end analytics workflows — from data ingestion and transformation to visualization and stakeholder reporting — using MySQL, Power BI, and Pentaho Spoon.

SKILLS

Programming & Query Languages:	SQL, Python, DAX
Data Visualization & BI Tools:	Power BI, Microsoft Excel, Dashboard Development, KPI Reporting
Databases & Data Modeling:	MySQL, Relational Databases, Star Schema, Fact & Dimension Modeling, Data Warehousing
ETL & Data Engineering:	ETL Pipelines, Pentaho Spoon, Data Cleaning, Data Transformation, Data Pipeline Development
Analytics Skills:	Statistical Analysis, Business Intelligence Reporting, Data Visualization, Trend Analysis, Insight Generation
Libraries & Tools:	pandas, NumPy, Matplotlib, Git
Coursework:	DBMS, Data Structures & Algorithms, Machine Learning, Statistics & Probability

EXPERIENCE

- Data Analytics Intern — Decode Data Academy** Jan 2026 – Present
- Cleaned, transformed, and optimized structured student datasets (10,000+ records) using MySQL and advanced SQL queries, improving data accuracy by eliminating 95%+ of inconsistencies for downstream reporting.
 - Designed scalable relational data models, SQL views, fact/dimension tables, and KPI metrics — reducing average dashboard query load time by ~20% and enabling self-serve analytical reporting across teams.
 - Built 6 KPI-driven Power BI dashboards using SQL, DAX measures, and star-schema modeling to monitor student performance and participation trends, supporting data-driven program decisions.

PROJECTS

Student Performance & Contest Analytics Dashboard (*Private*) — SQL — Power BI

- Developed an end-to-end analytics solution using MySQL and Power BI to analyze coding contest performance, participation trends, and ranking insights across 5+ student datasets covering 500+ records.
- Performed data cleaning, feature engineering, and ETL transformation using SQL and MySQL, improving analytical accuracy and reducing manual reporting effort by automating KPI calculations.

- Designed interactive Power BI dashboards with DAX measures, drill-through analysis, and dynamic slicers — enabling stakeholders to track performance metrics and identify trends across multiple dimensions.

Formula 1 Championship Analytics Dashboard — Power BI — DAX — Star Schema

[Link](#)

- Analyzed 70+ years of Formula 1 historical data spanning 1,100+ races and 850+ drivers, applying star-schema modeling and DAX calculations to structure a complex multi-dimensional dataset for BI reporting.
- Built 4+ interactive Power BI dashboards with drill-through filters and dynamic visuals to analyze driver performance, championship standings, and historical race trends — reducing ad-hoc data queries by centralizing insights.

Flight Data Engineering Pipeline — ETL — SQL — Power BI — Pentaho Spoon

[Link](#)

- Engineered a production-grade ETL pipeline using Pentaho Spoon and MySQL to ingest, clean, and transform 445K+ flight records into an optimized analytical dataset, reducing end-to-end data processing time by an estimated 35%.
- Applied star-schema modeling, data cleaning, and statistical analysis to generate operational insights on airline delays and performance metrics, delivered through 3 Power BI dashboards with interactive drill-down capabilities.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Lakshmi Narain College of Technology, Bhopal (M.P.)

2022 – 2026

EXTRACURRICULARS & ACHIEVEMENTS

Workshop Attendee — Edge AI Workshop — INDEYES

2024

Attended a technical workshop on Edge AI concepts, deployment pipelines, and on-device inference.

Event Organizer — LN Fest — Lakshmi Narain College of Technology

2024

Co-orchestrated a large-scale college cultural and technical fest as part of a student organizing team.

Independent Retail Achievement — Aashima Mall, Bhopal

2023

Singlehandedly managed complete retail operations during store inauguration amid unexpected staffing challenges; contributed to driving **Rs. 1 Lakh+ in single-day sales** through customer focus, quick decision-making, and operational excellence.

CERTIFICATIONS

Data Engineer - Training Badge — AWS Academy

Dec 2025

Database Solutions Expert — Wipro TalentNext

Oct 2024
