SUMMARY

Motivated B.Tech student specializing in **Artificial Intelligence and Data Science** with hands-on experience in **Data Analytics, SQL, Power BI, Python, and ETL pipelines**. Skilled in data visualization, dashboard development, and transforming large datasets into actionable business insights. Seeking opportunities in **Data Analytics, Business Intelligence, and Data Engineering**.

SKILLS

Technical Skills : SQL, Power BI, Python, Excel, MySQL

Data Analytics : Data Cleaning, Data Modeling, ETL, Data Visualization, Dashboard Design, DAX, Analytical Thinking

Courseworks : DBMS, Data Structures & Algorithms, Machine Learning, Artificial Intelligence, OOPS, Operating Systems

Soft Skills : Problem Solving, Communication, Adaptability, Time Management

EXPERIENCE

Data Analytics Intern at Decode Data Academy

- Processed and transformed student datasets using MySQL through data cleaning and normalization techniques.
- Designed SQL views, fact/dimension tables, and performance metrics for analytical reporting.
- Developed 6 interactive Power BI dashboards using SQL, DAX, and KPI analysis to generate actionable insights.

PROJECTS

Student Performance & Contest Analytics Dashboard

SQL — Power BI

- Built an end-to-end analytics solution by transforming multi-contest student datasets using MySQL and SQL views.
- Performed data cleaning, feature engineering, and fact/dimension modeling for analytical reporting.
- Developed 6 interactive Power BI dashboards analyzing coding performance, participation trends, rankings, and branch-wise insights.

Formula 1 Championship Analytics Dashboard

Power BI

- Analyzed 70+ years of Formula 1 data covering 1100+ races and 850+ drivers.
- Developed 4 interactive dashboards to evaluate driver performance, race strategies, and championship trends using DAX and data modeling.

Flight Data Engineering Pipeline

ETL — SQL — Power BI

- Developed an ETL pipeline transforming 445K+ flight records into an optimized analytical dataset.
- Performed data cleaning using Spoon (Pentaho), designed a star-schema model in MySQL, and built Power BI dashboards for airline and delay analysis.

EDUCATION

B.Tech in Artificial Intelligence and Data Science
Lakshmi Narain College of Technology, Bhopal (M.P.)

2022 - 2026

CERTIFICATIONS

Data Engineer - Training Badge — **AWS Academy**
Database Solutions Expert — **Wipro TalentNext**

Dec 2025
Oct 2024
