Summary

Aspiring Data Analyst and Business Intelligence professional with hands-on experience designing end-to-end analytics solutions using SQL, Python, Power BI, DAX, MySQL, and ETL pipelines. Skilled in building KPI-driven dashboards, developing star-schema data models, performing exploratory data analysis, and transforming 500K+ records across banking, aviation, and academic datasets into actionable business insights. Strong track record in data cleaning, data validation, requirement gathering, stakeholder management, and translating complex datasets into clear, decision-ready reporting for Data Analyst, Business Analyst, MIS, SQL Developer, and Power BI Developer roles.

Skills

Programming:	SQL, Python, DAX
Business Intelligence:	Power BI, Dashboard Development, KPI Reporting, Data Visualization, Ad-hoc Reporting
Databases:	MySQL, Relational Databases, Star Schema, Fact & Dimension Modeling, Data Warehousing
ETL & Data Engineering:	Pentaho Spoon, ETL Pipelines, Data Cleaning, Data Transformation, Data Validation
Analytics:	Exploratory Data Analysis, Statistical Analysis, Trend Analysis, Business Intelligence, Requirement Gathering, Stakeholder Management
Libraries:	Pandas, NumPy, Matplotlib, Seaborn
Tools:	Microsoft Excel, Git, Jupyter Notebook
Relevant Coursework:	DBMS, Statistics, Machine Learning, Data Structures and Algorithms

Experience

Data Analytics Intern – Decode Data Academy

July 2025 – Present

- Cleaned, transformed, and standardized 10,000+ student records across 5+ branches and 2 colleges using MySQL and SQL, resolving naming/formatting inconsistencies and eliminating 95%+ of data errors.
- Designed normalized relational databases, 10–15 SQL views, and 4–5 star-schema fact/dimension tables for scalable, high-performance BI reporting.
- Built 6 interactive Power BI dashboards (10+ KPI cards) with SQL, DAX, and drill-through navigation, refreshed weekly for teachers and administrators to track performance, contests, and learning outcomes.
- Introduced Pentaho Spoon ETL into SQL reporting workflows, improving processing efficiency by 20–30% and cutting manual reporting effort.
- Collaborated within a 6-member analytics team as the sole intern, gathering requirements, defining KPIs, and delivering dashboards for data-driven decisions.
- Performed data validation, QA, and business-rule verification across 1,000+ records to ensure consistent, accurate analytical outputs.

Projects

Flight Data Engineering Pipeline

[GitHub](#)

Pentaho Spoon | MySQL | Power BI

- Built an end-to-end ETL pipeline (Pentaho Spoon, MySQL) processing 445K+ raw flight records (375K+ flights, 283 cities, 3,663 routes) in 4–5 minutes.
- Aggregated 455K raw rows into a 6.5K-row analytics-ready fact table (~98% reduction), boosting dashboard performance.
- Built SQL views and star-schema models, then developed 4 Power BI dashboards (3–4 visuals each) analyzing airline delays, airport performance, and carrier efficiency.

Banking Risk Analytics & Loan Default Analysis (Self-Directed Project)

[GitHub](#)

Python | Pandas | NumPy | Matplotlib | Seaborn

- Conducted EDA on a 55K-row, 122-column loan dataset – data cleaning, missing-value treatment, feature engineering, and risk segmentation.
- Engineered 10+ features (income segmentation, credit ratio, EMI burden, employment duration) to strengthen customer risk profiling.
- Built KPI visualizations covering loan defaults, repayment behavior, and credit affordability for actionable risk insights.

Student Performance & Contest Analytics Dashboard (Internship)

[Live Dashboard](#)

Power BI | SQL

- Collaborated with a 10-member team to build a BI solution integrating 5+ datasets (1,000+ students, 5+ branches, 2 colleges) via MySQL, SQL, and Power BI.
- Built SQL transformations, DAX measures, and 10+ KPI cards with drill-through reports to automate weekly reporting on contests, performance, and rankings.

Education

Bachelor of Technology (B.Tech.) in Artificial Intelligence and Data Science

Lakshmi Narain College of Technology, Bhopal (M.P.)

2022 – 2026

Certifications

AWS Academy Data Engineering Badge

Dec 2025

Wipro TalentNext Database Solutions Expert

Oct 2024

HackerRank SQL – 5-Star (Gold) Badge
