SUMMARY

Aspiring Data Analyst with hands-on experience building 6+ Power BI dashboards, SQL-based analytical solutions, and ETL pipelines processing 450K+ records. Skilled in SQL, Python, Power BI, DAX, MySQL, Excel, data visualization, and data modeling, with practical experience in cross-functional collaboration, stakeholder management, and data-driven decision-making across an internship and independent retail business management.

SKILLS

Programming & Query Languages:	SQL (Joins, Subqueries, Aggregate Functions), Python, DAX
Data Visualization & BI:	Power BI, Microsoft Excel, Data Visualization, Dashboard Development, KPI Reporting, Ad-hoc Reporting, Data Storytelling
Databases & Data Modeling:	MySQL, Relational Databases, Star Schema, Fact & Dimension Modeling, Data Warehousing, OLAP
ETL & Data Engineering:	Pentaho Spoon, ETL Pipelines, Data Cleaning, Data Validation, Data Transformation, Data Quality Assurance, Data Governance
Analytics & Business Skills:	Data Analysis, Business Intelligence, Trend Analysis, Statistical Analysis, Stakeholder Management, Requirement Gathering
Libraries & Version Control:	pandas, NumPy, Matplotlib, Git

EXPERIENCE

Data Analytics Intern — Decode Data Academy	<i>Jan 2026 – Present</i>
- Cleaned, transformed, and validated 10,000+ records using MySQL and SQL joins, subqueries, and aggregate functions, improving data quality by eliminating 95%+ inconsistencies for reliable downstream reporting. - Designed scalable relational databases, SQL views, and fact/dimension tables using star-schema modeling to support high-performance BI reporting. - Built 6 interactive Power BI dashboards using SQL and DAX to monitor student performance, contest participation, and learning outcomes, translating stakeholder requirements into accurate KPI tracking. - Automated recurring reporting workflows by integrating SQL-based transformations with Power BI, driving process improvement and report automation that reduced manual reporting effort and improved turnaround time.	
Business Operations Analyst — Premium Clothing Retail Store, Aashima Mall	<i>May 2023 – May 2026</i>
- Managed end-to-end operations of a 1,200 sq. ft. retail store, including inventory valued at approximately Rs. 50–90 Lakhs, daily sales, billing, and supplier coordination, while supervising 2 store associates. - Led vendor management and procurement across 20+ suppliers, and conducted quarterly inventory audits and data reconciliation to optimize purchasing decisions and maintain inventory accuracy. - Performed root-cause analysis on seasonal demand, festival sales, and dead-stock trends to forecast demand and set pricing strategies and promotional campaigns while maintaining profitability. - Contributed to over Rs. 1 Lakh in first-day sales at store launch through data-informed pricing, inventory planning, and promotional execution, and led the implementation of an AI-assisted billing solution using prompt engineering to replace a discontinued commercial system.	

PROJECTS

Student Performance & Contest Analytics Dashboard <i>(Private – Internship)</i> MySQL Power BI DAX	
– Built an end-to-end BI solution analyzing student performance and contest participation across 5+ integrated datasets (500+ records), from SQL-based ETL through KPI calculation to interactive dashboards with drill-through navigation and dynamic slicers for stakeholder use.	
Formula 1 Championship Analytics Dashboard Power BI DAX SQL	Link
– Analyzed 70+ years of historical data spanning 1,100+ races and 850+ drivers using a star-schema model and reusable DAX measures, delivering multi-dimensional Power BI visualizations with dynamic filtering for driver, constructor, and race-outcome comparisons.	
Flight Data Engineering Pipeline Pentaho Spoon MySQL Power BI	Link
– Engineered an ETL pipeline with Pentaho Spoon and MySQL to ingest, validate, and transform 445K+ flight records into an analytics-ready dataset, then built Power BI dashboards analyzing airline delays, airport performance, and carrier efficiency through drill-down KPI reporting.	

EDUCATION

Bachelor of Technology (B.Tech.) in Artificial Intelligence and Data Science	
Lakshmi Narain College of Technology, Bhopal (M.P.)	2022 – 2026

CERTIFICATIONS

AWS Academy Data Engineering Badge	Dec 2025
Wipro TalentNext Database Solutions Expert	Oct 2024
