SUMMARY

Aspiring Analytics Associate with hands-on, well-rounded experience across SQL, Python, Power BI, and Excel, supporting end-to-end analytics operations from data cleaning to dashboard delivery. Skilled in preparing and validating large datasets, building KPI-driven reports, and collaborating with stakeholders to support data-driven business decisions. Comfortable working across the analytics stack — database design, ETL, exploratory analysis, and business intelligence reporting — with a track record of transforming 450K+ records into reliable, actionable insights.

SKILLS

Analytics:	Data Analytics, Exploratory Data Analysis, Statistical Analysis, Trend Analysis, Data-Driven Decision Making
SQL & Databases:	SQL, MySQL, Views, Joins, Relational Databases, Star Schema, Data Warehousing
Business Intelligence:	Power BI, DAX, Dashboard Development, KPI Reporting, Data Visualization, Ad-hoc Reporting
Programming & Libraries:	Python, Pandas, NumPy, Matplotlib, Seaborn
Data Quality & ETL:	Data Cleaning, Data Validation, Data Transformation, Pentaho Spoon, ETL Pipelines
Business Support:	Requirement Gathering, Stakeholder Collaboration, Reporting, Documentation
Tools:	Microsoft Excel, Git, Jupyter Notebook
Relevant Coursework:	DBMS, Statistics, Machine Learning, Data Structures and Algorithms

EXPERIENCE

Analytics Associate Intern — Decode Data Academy	<i>July 2025 – Present</i>
- Cleaned, transformed, and validated 10,000+ student records using MySQL and advanced SQL queries, improving data quality by eliminating over 95% of inconsistencies for reliable analytics support. - Designed normalized relational databases, SQL views, and star-schema data models to support scalable business intelligence reporting and high-performance analytical queries. - Developed six interactive Power BI dashboards using SQL, DAX, drill-through navigation, and KPI-driven visualizations to analyze student performance, contest participation, and learning outcomes. - Automated SQL-based transformation and reporting workflows, reducing manual reporting effort while improving reporting accuracy and turnaround time. - Collaborated with stakeholders across teams to gather reporting requirements, define KPIs, and deliver interactive dashboards supporting data-driven decision making. - Performed data validation, quality assurance, and business rule verification throughout the analytics pipeline to ensure consistency, accuracy, and reliability of outputs.	

PROJECTS

Flight Data Engineering Pipeline Pentaho Spoon MySQL Power BI	Live Dashboard
- Designed and implemented an end-to-end ETL pipeline using Pentaho Spoon and MySQL to ingest, cleanse, validate, and transform 445K+ flight records into an analytics-ready dataset for business reporting. - Built SQL views, applied star-schema data modeling, and developed interactive Power BI dashboards with KPI reporting and drill-down analysis to evaluate airline delays, airport performance, carrier efficiency, and operational trends. - Optimized data transformation workflows by integrating ETL processes with SQL-based analytical models, improving dataset readiness for business intelligence and dashboard reporting.	
Banking Risk Analytics & Loan Default Analysis Python Pandas NumPy Matplotlib Seaborn	GitHub
- Conducted exploratory data analysis on banking datasets containing current and historical loan applications by performing data cleaning, missing value treatment, feature engineering, correlation analysis, and customer risk segmentation. - Developed business-driven visualizations and KPIs to analyze loan defaults, repayment behavior, employment stability, income segmentation, EMI burden, and credit affordability, generating actionable insights for credit risk assessment. - Engineered business-focused analytical features including income segmentation, credit ratio, employment duration groups, and EMI burden metrics to enhance customer risk profiling and financial decision-making.	
Student Performance & Contest Analytics Dashboard (<i>Internship</i>) Power BI SQL	Live Dashboard
- Built an end-to-end business intelligence solution integrating 5+ student datasets using MySQL, SQL, and Power BI to analyze contest participation, performance trends, rankings, and learning outcomes through KPI-driven dashboards. - Developed SQL transformations, DAX measures, drill-through reports, and dynamic slicers to automate reporting, improve analytical accuracy, and enable stakeholders to monitor performance across multiple dimensions.	

EDUCATION

Bachelor of Technology (B.Tech.) in Artificial Intelligence and Data Science Lakshmi Narain College of Technology, Bhopal (M.P.)	2022 – 2026
--	-------------

CERTIFICATIONS

AWS Academy Data Engineering Badge	Dec 2025
Wipro TalentNext Database Solutions Expert	Oct 2024
